# College Mathematics for Everyday Life

A College Level Liberal Arts Mathematics Text

2<sup>nd</sup> Edition

## Authors:

Maxie Inigo

Jennifer Jameson

Kathryn Kozak

Maya Lanzetta

Kim Sonier

College Mathematics for Everyday Life, 2<sup>nd</sup> Edition by Maxie Inigo, Jennifer Jameson, Kathryn Kozak, Maya Lanzetta, and Kim Sonier is licensed under a [Creative Commons Attribution-ShareAlike 4.0 International License](https://creativecommons.org/licenses/by-sa/4.0/).

This license lets others remix, tweak, and build upon your work even for commercial purposes, as long as they credit you and license their new creations under the identical terms. This license is considered to be some to be the most open license. It allows reuse, remixing, and distribution (including commercial), but requires any remixes use the same license as the original. This limits where the content can be remixed into, but on the other hand ensures that no-one can remix the content then put the remix under a more restrictive license.

This work is dedicated to our families. We deeply appreciate all of your support throughout the writing of this textbook.

## Acknowledgements:

Many thanks to the following people for reviewing this textbook:

Albert Gossler

Donald Young

Chandler Jameson

Many thanks to Coconino Community College administrators for their support:

Leah Bornstein, President

Russ Rothamer, Vice President of Academic Affairs

Jami Van Ess, Vice President of Business and Administrative Services

Ingrid Lee, Dean of Arts and Sciences

# Table of Contents

|   |     |
|---|-----|
| Chapter 1: Statistics: Part I   | 1   |
| 1.1: Statistical Basics   | 1   |
| 1.2: Random Sampling  | 4   |
| 1.3: Clinical Studies   | 8   |
| 1.4: Should You Believe a Statistical Study?  | 13  |
| 1.5: Graphs   | 17  |
| 1.6: Graphics in the Media  | 25  |
| Homework  | 31  |
| Chapter 2: Statistics: Part II  | 39  |
| 2.1: Proportion   | 39  |
| 2.2: Location of Center   | 40  |
| 2.3: Measures of Spread   | 46  |
| 2.4: The Normal Distribution  | 59  |
| 2.5: Correlation and Causation, Scatter Plots   | 64  |
| Homework  | 69  |
| Chapter 3: Probability  | 75  |
| 3.1: Basic Probabilities and Probability Distributions;<br>Three Ways to Define Probabilities | 75  |
| 3.2: Combining Probabilities with "And" and "Or"  | 86  |
| 3.3: Conditional Probabilities  | 95  |
| 3.4: Expected Value and Law of Large Numbers  | 99  |
| 3.5: Counting Methods   | 105 |
| Homework  | 115 |
| Chapter 4: Growth   | 132 |
| 4.1: Linear Growth  | 132 |
| 4.2: Exponential Growth   | 136 |
| 4.3: Special Cases: Doubling Time and Half-Life   | 141 |
| 4.4: Natural Growth and Logistic Growth   | 151 |
| Homework  | 159 |
| Chapter 5: Finance  | 167 |
| 5.1: Basic Budgeting  | 167 |
| 5.2: Simple Interest  | 169 |
| 5.3: Compound Interest  | 171 |

|  |     |
|--|-----|
| 5.4: Savings Plans   | 177 |
| 5.5: Loans   | 183 |
| Homework   | 192 |
| Chapter 6: Graph Theory  | 197 |
| 6.1: Graph Theory  | 197 |
| 6.2: Networks  | 199 |
| 6.3: Euler Circuits  | 207 |
| 6.4: Hamiltonian Circuits  | 211 |
| Homework   | 224 |
| Chapter 7: Voting Systems  | 231 |
| 7.1 Voting Methods   | 231 |
| 7.2 Weighted Voting  | 243 |
| Homework   | 256 |
| Chapter 8: Fair Division   | 262 |
| 8.1: Basic Concepts of Fair Division                                   | 262 |
| 8.2: Continuous Methods 1: Divider/Chooser and<br>Lone Divider Methods | 271 |
| 8.3: Continuous Methods 2: Lone Chooser and<br>Last Diminisher Methods | 279 |
| 8.4: Discrete Methods: Sealed Bids and Markers                         | 285 |
| Homework   | 302 |
| Chapter 9: Apportionment   | 312 |
| 9.1: Basic Concepts of Apportionment and Hamilton's Method             | 312 |
| 9.2: Apportionment: Jefferson's, Adam's, and Webster's Methods         | 318 |
| 9.3: Huntington-Hill Method  | 324 |
| 9.4: Apportionment Paradoxes   | 330 |
| Homework   | 334 |
| Chapter 10: Geometric Symmetry and the Golden Ratio                    | 338 |
| 10.1: Transformations Using Rigid Motions                              | 338 |
| 10.2: Connecting Transformations and Symmetry                          | 352 |
| 10.3: Transformations that Change Size and Similar Figures             | 357 |
| 10.4: Fibonacci Numbers and the Golden Ratio                           | 364 |
| Homework   | 372 |
| References   | 390 |
