**Subject:** RE: FF I & II pass rates

Hi Melinda,

Would it be possible to obtain the FF I & II average state pass rate for Spring 2009? I'd go with the 83% you gave me last year but it appears that the average is going up; 81% in '07 and 83% in '08. If it went up again, then the programs at CCC will need to also set their success bar higher.

Many thanks,

Steve Chambers

Hi Steve –

Well the results are really close to last year's. The State average pass rate for FF I & II Spring Semester 2008 is 83%.

Please contact me if additional information is needed.

Hello Melina,

Last year you were able to calculate the FF I & II average state pass rate for me.

Would it be possible to obtain an update of this same information for Spring 2008?

Many thanks,

Steve Chambers

Hi Steve –

Sorry it's taken me so long to get back with you, but here you go:

The state average pass rate for FF I & II Spring Semester 2007 is 81%.

Hope this helps.

Please contact me with any other questions.

Melina ☺

Hello Melina,  
Just checking in with you to see how the average pass rate for FF I & II is coming along?  
Numbers are my life, so if there is anything I can do at this end that would help please  
let me know.  
Thanks,  
Steve Chambers

Hello Melina,  
I got your name from John Cardani. I am preparing a presentation on assessment of student learning for the Coconino Community College Governing Board. As part of the presentation, I am interested in comparing CCC student pass rates on the Fire Fighter I & II to the state average pass rate. I have the 5/9/07 CCC figures from John. Would it be possible for you to tell me what the state-wide pass rate is for this same period?

Many thanks,
