Procedure 206-05 Time and Effort Requirements for Federal Grants
Sponsor: Business and Administrative Services

Purpose
The purpose of this procedure is to outline the documentation and time and effort requirements for any College employees who are at least partially funded by federal grant programs, or whose time is used toward match for a federal grant program.

Definitions
Personnel Activity Report records time and effort devoted to a particular grant by an individual. Such reports are generally prepared by the Business Office for certification by the employee or their supervisor. They are usually presented on either a quarterly or semi-annual basis.

Procedure
Charges for employee costs to federal grant programs must be based on records that accurately reflect the work performed. These records must:
1. Reasonably reflect the total activity for which the employee is compensated by the College, not exceeding 100% of compensated activities.
2. Support the distribution of the employee’s salary or wages among specific activities or cost objectives if the employee works for multiple federal grant programs, or for both federal grant and other programs.

Separate timesheets are required for hourly employees who work on both federal and other programs, or who work for more than one federal program grant.

All employees who are fully or partially funded by a federal grant program must consult with the Grant Accountant to determine the required procedure with regards to documentation and whether to submit a personnel activity report (PAR). (Consult Documentation Grid below.) Time and effort reports are prepared by the Grant Accountant and certified by the employee or their supervisor at least semi-annually.
